INTERNATIONAL FEDERATION OF IRAQ REFUGEES-IFIR

Support Mr. Khosrow Heydari and Mr. Ali Akbar Nikbakht Sarvestani, Iranian Refugees in Azerbaijan.

Support Iranian refugees in Azerbaijan! Mr. Khosrow Heydari and Mr. Ali Akbar Nikbakht Sarvestani fled from the Islamic Republic of Iran for fear of their lives and human rights. **They were on hunger strike outside the UNCHR in Azerbaijan for 5 days.** They are now in hospital.

We demand that those Iranian refugees currently living in Azerbaijan be granted refugee status and be moved to a third country.

Some, including Mr Khosrow Heydari, have been living in Azerbaijan for eighteen years. He does not feel safe as he is constantly under threat of being sent back to Iran. Mr. Ali Akbar Nikbakht Sarvestani has been waiting for 10 years and has a serious heart disease. They were living under the Islamic Republic of Iran's regime, which is against the principles of human rights, which is against women's rights and workers' rights and stones women and enforces the death penalty against those people that oppose it.

The UNHCR knows the position of the Islamic Republic of Iran. **We ask the UNHCR to give these people listed below, and their families and children, refugee status and move them to a third country as soon as possible:**

1. Mr. Khosrow Heydari (who has been waiting for refugee status for the 18 years)
2. Mr. Ali Akbar Nikbakht Sarvestani (who has been waiting for 10 years and has a serious heart disease)

Take Action
